FOR THE PAST 25 YEARS, INDIAWOOD HAS BEEN ONE OF THE WORLD'S LEADING EXHIBITIONS FOR THE FURNITURE MANUFACTURING AND THE WOODWORKING INDUSTRY

Since its inception in 2000, INDIAWOOD has grown exponentially, beginning at R.B.A.N.M.'s Grounds, transitioning to Palace Grounds, and finding its current home at the Bangalore International Exhibition Centre (BIEC) in 2008. The event stands as the cornerstone of the industry, driving development, sustainability, and growth. By providing a platform for businesses to expand their markets, forge international partnerships, and explore new opportunities, INDIAWOOD has played a pivotal role in shaping the economic landscape of the woodworking and furniture production technology sector.

- Experience the entire value-added chain of the woodworking and furniture production technology industry in one place
- Gain a comprehensive overview of global industry developments
- A must-attend event for maintaining a strong industry profile
- Unmatched focus on networking and knowledge transfer
- Benefit from the synergy of the co-located India Mattresstech & Upholstery Supplies Expo
- Enhance your industry knowledge at the concurrent conferences, Surface in Motion India & Wood+ in Architecture & Design
- Influence future trends and drive innovation and growth across related sectors

MARKET SCENARIO

The India furniture market is anticipated to achieve a CAGR of 10.9% during 2023-28 to reach \$32.7 Bn by 2026. The commercial sector is further sub-segmented into non-contracting and contracting. The demand for furniture has been observed to majorly generate from northern and southern India.

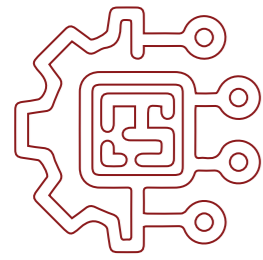

The import duty on furniture was increased from 20% to 25% to boost domestic manufacturing. BIS Standards on modular furniture were published by BIS in 2022 to enhance standardization in furniture and ensure product safety.

The Indian wooden furniture market offers immense opportunities for innovation. Local manufacturers are increasingly partnering with foreign manufacturers to enhance quality and design. The growing demand for modular furniture presents vast opportunities for wooden furniture and hardware owners. The booming wood industry in India has helped reduce production costs, making furniture more cost-effective and accessible.

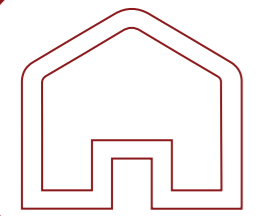

An area poised for enhancement is the supply chain. As the industry continues to grow, improving supply chain efficiency will be crucial to meeting increasing demands and maintaining high standards of quality, cost and delivery. Optimizing supply chain logistics underscores INDIAWOOD's commitment to fostering a robust industry ecosystem capable of meeting evolving market needs effectively.

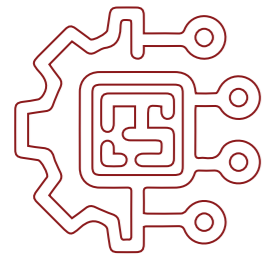

ELEVATE YOUR BUSINESS AT INDIAWOOD

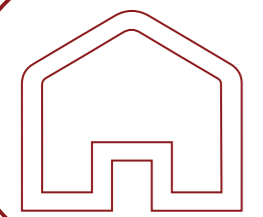

Cutting-Edge Technology: Explore groundbreaking technologies in woodworking machinery, engineered wood products, and sustainable materials that are shaping the future of the industry.

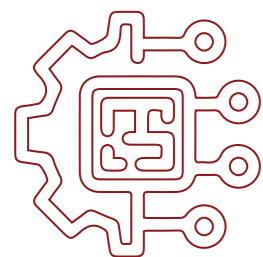

Exhibitor Showcase: Over 600 exhibitors from across the globe will display their latest products and services, providing a comprehensive overview of the industry's advancements.

International Presence: Witness 30+ countries showcasing their unique contributions to the woodworking and furniture sectors, fostering global collaboration and trade.

EXHIBITOR SPEAKS:

We have been participating in DELHIWOOD since its inception in 2013, and with every exhibition, we have grown alongside the event. Our technology has been showcased to the North Indian audience, and with each passing year, we have increased our exhibition area. We appreciate the NuernbergMesse team for organizing such a fantastic event, and we have always been pleased to participate in DELHIWOOD. The event continues to set higher standards for itself, and this year's exhibition has outperformed all previous editions, making it one of the best DELHIWOOD shows to date.

Gopi T, Managing Director - Woodtech Consultants Pvt Ltd

Every edition of DELHIWOOD has shown progressive improvement, and the current edition has surpassed all previous ones. Compared to 2019, the event is miles ahead, and we are delighted with the overall experience. It is impressive to see the massive crowds that attended, and we appreciate the effort put into organizing such a successful event. This is the best edition of DELHIWOOD that I have seen.

Suresh Balakrishnan, Managing Director - Leitz Tooling Systems India Pvt Ltd

The experience has been incredible; it has exceeded my expectations in every aspect. The number and quality of people in attendance have been outstanding, much better than what I anticipated.

Pranesh Chhibber, Country Head - Canadian Wood

DELHIWOOD brings together the entire wood industry, including end-users who are often technically qualified. It provides a unique opportunity to meet and interact with customers who use our products and showcase our range, engaging in technical discussions. This has enabled us to meet a significant number of customers and generate new leads that we can work upon. Overall, our experience has been positive, and we appreciate the opportunity to engage with end-users and showcase our products at DELHIWOOD.

Prabhakar Jain, Chief Business Officer - ICA Pidilite

The response to DELHIWOOD 2023 has far exceeded our expectations, and we are thrilled with the show's quality and overall success. It has been a wonderful and amazing experience, with a much better response than we anticipated. We are delighted to have been a part of such an exceptional event that has surpassed our expectations and provided us with valuable opportunities.

Dhanesh Bhatia, Founder - Aryamman Interiors

WHY YOUR CUSTOMERS WILL ATTEND INDIAWOOD?
